Map of Boston Police District Boundaries Back Cover

Summary

Methodology

This report is based on crimes reported to, and arrests made by, the Boston Police Department within the City of Boston. The figures used in this report are tabulated according to the reporting criteria established by the Federal Bureau of Investigation's Uniform Crime Reporting system.

Throughout this report, reference will be made to serious and/or Part One crime. These categories include *violent crime* (homicide, rape and attempted rape, robbery and attempted robbery, and aggravated assault) and *property crime* (burglary and attempted burglary, larceny and attempted larceny, and vehicle theft and attempted vehicle theft). The category of Part Two crime includes other assaults, vandalism, weapon violations, prostitution, drug violations, DWI (driving while intoxicated), disorderly conduct, and "other." The category of "other" includes forgery and counterfeiting, fraud, embezzlement, stolen property, sex offenses, gambling, offenses against family and children, violation of liquor laws, vagrancy, parking violations, violation of traffic/motor vehicle laws, and all other offenses.

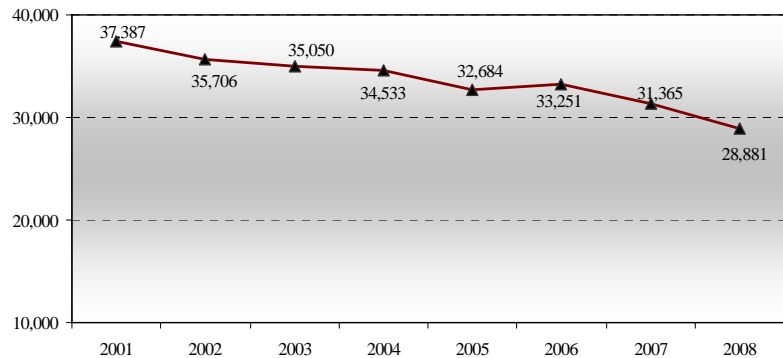

This report will also make reference to the Department's various police districts (see map on inside of back cover). The districts include A-1 (Downtown, Beacon Hill, North End, and Chinatown), A-7 (East Boston), A-15 (Charlestown), B-2 (Roxbury and Mission Hill), B-3 (Mattapan and portions of Dorchester), C-6 (South Boston), C-11 (Dorchester), D-4 (Back Bay, South End, and Fenway), D-14 (Allston and Brighton), E-5 (West Roxbury and Roslindale), E-13 (Jamaica Plain), and E-18 (Hyde Park).

Part One Crime¹

The City of Boston experienced a decrease in Part One crime for the year 2008, resulting in the lowest total since 1967. Since 2001, Part One crime committed has steadily decreased at an average annual rate of six percent (6%).

Part One crime reductions were seen in all twelve police districts in 2008 versus 2007. The greatest decrease was seen in the category of vehicle theft (-30%); with all twelve districts showing a decrease. The lowest reported category of vehicle theft was in district A-15, which had a substantial decrease of sixty-one percent (-61%). Citywide, the number of reported vehicle theft has decreased by fifty-seven percent (-57%) since 2004, with 3,145 fewer incidents.

| Larceny | -6% | -5% |
| Vehicle Theft & Attempted | -57% | -30% |

Notable reductions also occurred in the category of rape and attempted rape, with decreases of nineteen percent (-19%) in comparison to 2007 and twenty-one (-21%) in comparison to 2004.

¹ According to the FBI's Uniform Crime Reporting, Part One Crime is defined as Homicide, Rape or attempted, Robbery or attempted, Aggravated Assault, Burglary, Larceny, and Vehicle Theft.

Part Two Crime

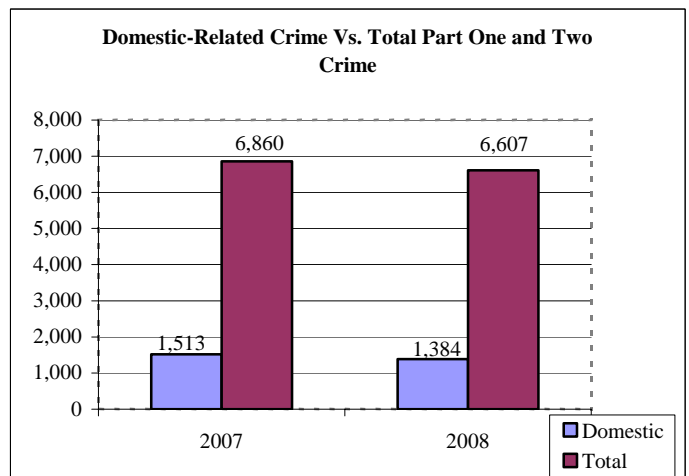

Part Two crime decreased by seven percent (-7%) in the City of Boston in 2008 versus 2007. The decrease was notable in all twelve districts. Citywide decreases were seen in vandalism (-10%), disorderly conduct (-5%), and drug violations (-5%). Increases were exhibited in categories of prostitution (8%), weapons violations (5%) and driving while intoxicated (DWI) (3%).

Firearm-Related Crime

Total violent firearm-related offenses (homicide, robbery, aggravated assault) increased by eight percent (8%) from 2007 to 2008. The increase is attributed to the increase in robberies (9%) in which 1,220 of the incidents involved firearms. The number of firearm arrests decreased by thirty-eight percent (-38%). Firearm arrests for homicide almost doubled as compared to 2007. The number of non-fatal shootings remained virtually the same as 2007.

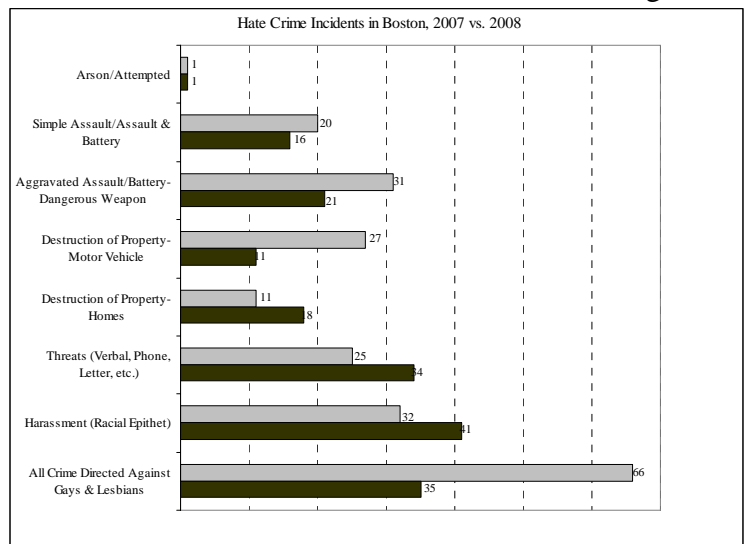

Domestic-Related Crime

The number of reported domestic-related crimes in the City of Boston decreased by 98 cases, a slight one percent reduction (-1%) from 2007. Domestic-related incidents accounted for ten percent (10%) of the total Part One and Two crimes reported to the Boston Police Department. Nine of the twelve police districts reported a decrease in reported domestic-related incidents. The greatest decrease was fifteen percent (-15%) in district E-18. Three of the districts however, reported a significant increase in domestic related crime; E-13 (39%), A-15 (22%), and A-7 (22%).

Reported Hate/Bias Crime

A total of 265 hate/bias crimes were reported to the Department's Community Disorders Unit (CDU) in 2008. Incidents referred to the CDU are those that possess elements of hate/bias motivation. After screening and investigation, 157 of these cases were classified as incidents of hate/bias crime. Changes were noticeable in 2008 versus 2007; district B-2 reported an increase of sixty-four percent (64%) hate/bias motivated crime, and district A-7 reported a major decrease of fifty-eight (-58%). District C-6 had the highest number of cases classified as hate/bias crime after investigation. District D-4 however had thirty-four (34%) of the reported hate/bias crime classified as miscellaneous. In terms of race/ethnicity, victims classified as Caucasian reported an increase of sixty-one percent (61%) in hate/bias motivated crimes. Destruction of property-motor vehicle decreased by fifty-nine percent (-59%), while destruction of property-homes increased by sixty-four percent (64%).

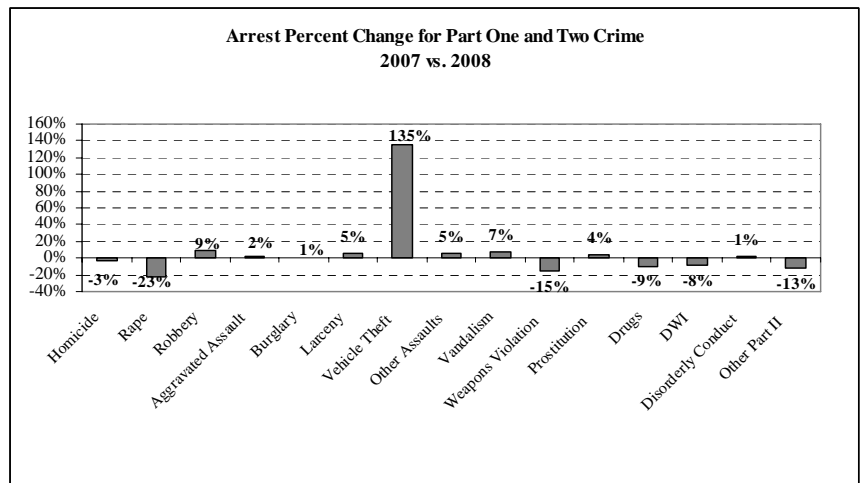

All hate/bias motivated crime against gays & lesbians had a tremendous drop of forty-seven percent (-47%).

Reported Crime in Housing Developments

During 2008, there were 3,301 reported Part One and Part Two crimes within the City of Boston’s Housing Developments. This number represents a decrease of nine percent (-9%) compared to 2007 and eleven percent (-11%) compared to 2004. It is also the lowest reported total crime for City of Boston Housing Developments since this data was first collected in 1992. In comparison to 2007, the highest drops were in prostitution (-80%), vehicle theft (-33%), and rape and attempted rape (-29%). An increase in reported crime was exhibited only in three categories: disorderly conduct (19%), weapons violations (7%), and larceny (3%).

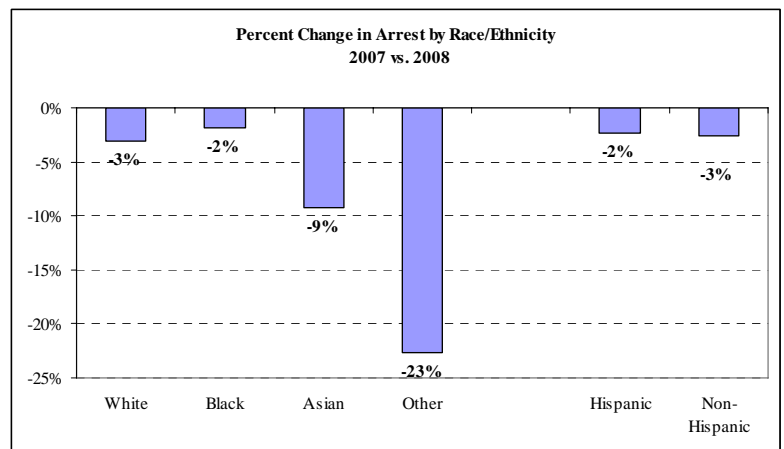

Arrests

A total of 21,811 arrests (excluding Arson) were made for Part One and Part Two crime in the City of Boston in 2008, yielding a decrease in arrests of three percent (-3%) from 2007. Arrests for Part One crime increased by six percent (6%), while arrests for Part Two crime decreased by seven percent (-7%). Compared to 2004, arrests have increased by eleven percent (11%) in Part One and Two crimes respectively. Although reported crime cannot be compared to arrests; because arrests data reflects the number of arrest during this particular time period regardless of when the incident occurred; the data indicates that as the number of arrest increases, the number of reported crimes decreases. As an example, for the category of vehicle theft, where 352 persons were arrested, there was a decrease of thirty percent (-30%) in reported crime.

Age, Race, and Gender of Arrestees

There was no significant citywide pattern change in arrests among the different races when comparing 2008 to 2007. With the exception of the number of female arrestees that has increased by two percent (+2) all other demographic categories have decreased. Arrest of those 13 years or younger has shown a significant decrease of nineteen percent (-19%).

Youth Arrests

During 2008, youth arrests (ages 16 and under) decreased by eight percent (-8%). Juveniles arrested for violent crime increased by eleven percent (11%) from 2007 and decreased by one percent (-1%) from 2004.

Drug Arrests

Since 2004, the number of arrestees Citywide increased by fourteen percent (14%). In comparison to 2007, there was a decrease of nine percent (-9%) in total arrests in 2008. There was a significant decrease of fifty-seven percent (57%) in arrests made in the “Asian” race category. Arrests for youth ages 16 and under for drug violations decreased by sixteen percent (-16%) but more than doubled for ages 13 & under in 2008 as compared to 2007.

Clearances Rates

During 2008, The Boston Police Department cleared eighteen percent (18%) of Part One crimes. Among Part One crime categories, aggravated assault had the highest clearance of fifty-three percent (53%), followed by rape and attempted rape with fifty one percent (51%).

Calls for Service

The Boston Police Department received 576,877 calls for service during 2008. The percent change was less than one percent compared to 2007 but an increase of eight percent (8%) in comparison to 2004.

Response Time/Activity Time

Fourteen percent (14%) of the total calls received were categorized as ***priority one*** calls, which requires an immediate response. The average response time for ***priority one*** calls was seven minutes from the time officers received the call to arrival. For 2008, forty-six percent (46%) of police time was spent on public service calls, 14 percent (14%) on internal service calls, and forty percent (40%) on preventive patrol.

Reported Crime

Methodology

Reported crime provided in this report is subject to the criteria established by the Federal Bureau of Investigation's Uniform Crime Reporting (UCR) program.

Under UCR guidelines, incidents that are unfounded (including previously unfounded incidents) are deducted from the total. Further, under the *hierarchy rule*, if several offenses are committed at the same time by a person or a group of persons, only the most serious offense is counted. The categories of rape, robbery, burglary, larceny, and vehicle theft include the attempted commission of these crimes.

Please note that Boston's rape and attempted rape figures are not available for years prior to 1958.

Firearm-Related Crime

Methodology

The Firearm-related crime section in this report includes incidents of homicide, robbery and attempted robbery, aggravated assault, and weapons violations involving firearms. The arrest data in this section includes firearm-related incidents of homicide, aggravated assault and weapons violations. Please note that arrests for incidents involving firearms reflect the year in which the arrest was made, not necessarily the year in which the incident/act was committed.

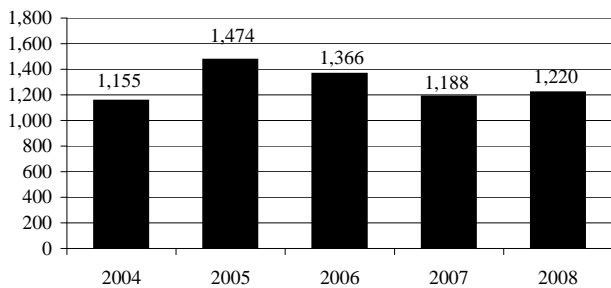

Firearm-related calls for service data are based on nature codes assigned by 911 call takers or officers on scene. These nature codes areas signed at the onset of an incident and may not reflect the actual nature of the call.

Finally, this section lists the number of firearms recovered in the City of Boston. Recovered firearm data reflects firearms that are submitted to the Boston Police Department's Ballistics Unit and subsequently entered into the Ballistic Case Management System.

Hate Crime

Methodology

This section covers those incidents that were referred to the Department's Community Disorders Unit (CDU). District personnel refer incidents to the CDU if elements of bias/hate-motivation are detected at the initial reporting stage. These cases are then screened and investigated by the CDU to determine whether bias against the victim based on race, ethnic/national origin, religion or sexual orientation was a factor in the incident. After screening and investigation, all cases are classified into one of 3 groups:

1. "Hate Crime" includes those cases that CDU determined to be hate crimes;
2. "Miscellaneous" includes those cases that have *indicators* of hate crimes, but not enough to be conclusive; and
3. "Non-Hate" includes those cases that are determined not to be a hate crime.

Crime in Housing Developments

Methodology

Reported crime in housing developments is based on a count of incidents occurring in the reporting area designated for each of the City's Boston Housing Authority (BHA) developments.

The categories of rape, robbery, burglary, larceny, and vehicle theft include the attempted commission of these crimes.

Please note that an asterisk denotes an elderly housing development.

Arrests

Methodology

Arrest data provided in this section are subject to the criterion established by the Federal Bureau of Investigations Uniform Crime Reporting (UCR) program (i.e., *hierarchy rule*).

The categories of rape, robbery, burglary, larceny, and vehicle theft include the attempted commission of these crimes.

This section lists arrest information by crime type, district, race, ethnicity, gender, and age group. Juveniles in this section include those under the age of 16. For comparison, arrestees of ages 14 to 24 are also reported. Arrests made by the Boston Police Department for other departments or agencies (parole, probation, default, welfare, etc.) are not included in this report. Arson arrests are made by the Boston Police Department but are investigated by the Boston Fire Department. A separate table for arson arrests is included at the end of this section.

Arrest data for District A-1 includes District A-15, as the districts fall within the same command.

In the drug arrest section of this report, the Boston Police Department's drug classifications are as follows: Class A (Heroin), Class B (Cocaine, PCP, Fentanyl, LSD, Morphine, MDMA), Class C (THC, Mescaline, Peyote, Psilocybin, MDA), and Class D (marijuana).

Clearances

Methodology

Clearance data provided in this Report are subject to the criteria established by the Federal Bureau of Investigations Uniform Crime Reporting (UCR) Program.

Reported Part One crime may be cleared either by arrest or “exceptional means” (e.g., investigation has revealed the offender, but the offender has died).

An “N/A” denotes that there were zero incidents in the given crime category/year/district. Rather than denote this with a 0% clearance rate, which is misleading, “N/A” has been used.

Calls for Service

Methodology

Calls for service data provided in this report were generated from the Department's Computer Aided Dispatch (CAD) system.

Preventive patrol data are based on the total number of minutes a unit is available for calls (i.e., on air), less the number of minutes a unit is on a call for service. Patrol time for District A-1 includes District A-15, as the districts fall within the same command.
